RE: First Draft of the Wasco County & Q-Life Broadband Strategic Plan

Attached is the first draft, in overview format, of the Wasco County & Q-Life Broadband Strategic Plan. The OBDD Broadband Strategic Planning Project Team has synthesized the discussions from all the workgroup sessions, and distilled main concepts into a system of goals and strategies that can be the basis for a broadband adoption and utilization work plan over the next several years.

Also attached is the “concept draft” -- a summary in one-page format of the whole plan containing all of the goals and strategies. In the upcoming plenary sessions we will work from this concept draft to establish priorities, identify near-term wins that can build momentum for the plan, and explore alternatives for resourcing.

An agenda for the plenary meeting is also attached. The location details appear below.

**Wasco County & Q-Life
Broadband Strategic Planning Plenary Session
March 21st -- 1:30pm-4:30pm
at The Dalles Civic Auditorium (323 East Fourth Street)**

We look forward to seeing you at the plenary strategic planning session.
